

PRODUCT DESCRIPTION

BF 700 series is the first product developed by B-FLEX. It's available in over 60 colors (included BF 700 FLUO and BF 700 SPECIAL) and made from Polyurethane. It can be heat applied on organic or synthetic fibers. This product is easy to work with; the sticky polyester carrier allows for fast weeding and easy repositioning of details that might have accidentally been removed. It is also soft and comfortable to wear, even with bulky designs.

Its thickness (90 micron) and its elasticity make BF 700 pleasant and soft on any garment, and ideal for multi-layer applications. BF 700 can withstand wash cycles up to 90°C.
